I have attached the letter from the program; it says, EPA is currently in communication with the Miccosukee Tribe of Indians of Florida (Tribe) and the U.S. Army Corps of Engineers (USACE) regarding the implementation of Florida's program, including the matter raised in your letter. The EPA met with the Tribe and the USACE on January 11, 2021, and we look forward to engaging in further discussions with the Tribe and the USACE on this matter. I took it that they were talking about the 404 assumption or the issues he wrote about. I attached his incoming too.
